

Beef Range

FEEDING FOR MAXIMUM THRIVE

Quinns of Baltinglass Ltd, a family run business since its establishment in 1936 is today one of the leading agricultural merchants in the country. Quinns have been manufacturing coarse rations since 1996 in Baltinglass.

Following the recent completion of an additional state of the art feed pelleting plant Quinns can now offer a comprehensive range of quality nuts alongside coarse rations.

The new feed plant is accredited under the Universal Feed Assurance Scheme (UFAS) and all grain purchased is from Irish Grain Assurance Scheme (IGAS) approved growers.

All home grown grain and proteins are blended with only the best quality imported raw materials available to ensure optimum quality feeds at all times.

Quinns have also invested in a NIR machine which now enables the Quality Control Manager to analyse both incoming raw materials and the outgoing finished feeds on site. This new facility guarantees that customers will get a consistent quality feed at all times.

Maximising performance is what Quinns are all about and to achieve this, the sales and technical team are available to provide both practical and nutritional advice as well as a wide range of on farm services including forage sampling (grass and preserved forages), milk analysis and soil analysis.

Quinns have formulated a superior beef mineral package which is included in our supreme range of coarse rations and pellets.

- Maximises feed conversion efficiency – Yea-Sacc Included
- Reduction in lameness – Protected Zinc included
- Improved herd health – High inclusion of Vitamin E, protected copper and Vitamin B
- Reduced risk of acidosis – Acid buff included

Beef Pellets

SUPREME WEANLING

- Ideal for feeding to stock from 6 months of age
- Contains soya bean meal which is essential for growing animals
- High levels of cereals included
- Balanced with a quality fibre source
- Ideal for feeding through creep feeders at grass also indoors with silage
- **Rumi Gain** included to maximise digestibility and herd performance.

Crude Protein	ME	UFL	Bulk	Bags
16%	11	0.95	✓	✓

SUPREME BULL BEEF

- High inclusion of cereals and maize to promote rapid muscle growth
- It is formulated to feed to young bulls and is suitable for feeding ad-lib
- Maize is a key component of this mix as it is essential for achieving a good fat score especially in young animals
- Contains soya bean meal and rolled beans
- Includes soya hulls which is an excellent source of digestible fibre
- **Rumi Gain** included to maximise digestibility and herd performance.

Crude Protein	ME	UFL	Bulk	Bags
15%	11.1	0.97	✓	

SUPREME MAIZE BEEF

- Suitable for feeding at high levels and ad-lib with straw
- Cereal based to provide ready available energy
- High Inclusion of maize which makes this feed suitable for feeding for the last 90 days of finishing
- Includes soya hulls which is an excellent source of digestible fibre
- Excellent daily liveweight gains achieved using this feed
- **Rumi Gain** included to maximise digestibility and herd performance.
- Ideal for finishing steers and heifers

Crude Protein	ME	UFL	Bulk	Bags
12%	11.1	0.97	✓	✓

SUPER STOCK

- High inclusions of barley, wheat and oats
- Economic to feed to store animals
- Beans and distillers are the main sources of protein
- There are no added minerals or vitamins included in this mix so therefore can be fed to sheep also
- It is recommended to supplement minerals on farm when feeding this mix.

Crude Protein	ME	UFL	Bulk	Bags
14%	10.8	0.9	✓	

SUPER BEEF 15%

- High inclusion of barley and wheat
- Ideal for feeding to animals after weaning
- Quality fibre & protein sources included to balance cereals
- Fully balanced with minerals and vitamins
- Suitable for feeding at both grass and indoors with forage.

Crude Protein	ME	UFL	Bulk	Bags
15%	11	0.95	✓	

SUPER BEEF FINISHER

- High inclusion of wheat and barley
- High levels of maize meal included to ensure maximum weight gain and herd performance
- Fully balanced with minerals and vitamins
- Ideal for finishing beef stock on grass or indoors with silage
- Suitable for finishing culled cows.

Crude Protein	ME	UFL	Bulk	Bags
13%	11.1	0.96	✓	

Beef Rations

SUPREME WEANLING

- Ideal for feeding to calves from 6 months of age
- Includes very palatable ingredients to promote intakes
- It includes cereals and flaked maize
- Contains soya bean meal which promotes growth in young animals
- **Rumi Gain** included and it's fully fortified with minerals, vitamins and trace elements to meet the needs of rapidly growing animals.

Crude Protein	ME	UFL	Bulk	Bags
16%	11	0.96	✓	✓

SUPREME BULL BEEF

- High proportion of flaked and ground maize along with rolled barley to promote a high weight gain
- High kill outs and good fat scores achieved with this ration every time
- This ration is formulated to feed young bulls with the aim of finishing them under 20 months and 16 months in some cases
- Suitable for feeding at high levels and ad-lib with straw
- **Rumi Gain** included to maximise digestibility and herd performance.

Crude Protein	ME	UFL	Bulk	Bags
15%	11.2	0.95	✓	

SUPREME MAIZE BEEF

- This is a superb ration achieving 1.9kg daily liveweight gains
- High in energy with a high inclusion of maize (flaked and ground) and barley
- Soya hulls included to increase digestible energy levels
- Protein sources include wheat distillers and rolled beans which are both high in protein and energy
- Suitable for feeding at high levels and ad-lib
- Highly palatable ration
- **Rumi Gain** included to maximise digestibility and herd performance.

Crude Protein	ME	UFL	Bulk	Bags
12%	11.3	0.97	✓	✓

SUPER BEEF 15%

- A high quality beef ration suitable for feeding to a wide range of beef animals
- High inclusion of barley and wheat
- Inclusion of high quality protein sources - wheat distillers and rolled beans
- Soya hulls or beet pulp included to provide a good digestible fibre source
- Can be fed at grass and indoors with forage
- Fully balanced with minerals and vitamins.

Crude Protein	ME	UFL	Bulk	Bags
15%	10.9	0.94	✓	✓

SUPER STOCK

- Includes a high level of cereals blended with wheat distillers, rolled beans and soya hulls
- This mix is very popular for feeding to store animals
- There are no added minerals or vitamins included in this mix so therefore can be fed to sheep also
- It is recommended to supplement minerals on farm when feeding this mix.

Crude Protein	ME	UFL	Bulk	Bags
14%	10.8	0.92	✓	

SUPER HI GAIN BEEF

- This is a simple blend of 3 or 4 ingredients based on cereals
- It is an economically formulated mix using quality ingredients
- Suitable for finishing steers and heifers on silage
- There are no added minerals or vitamins in this ration so please supplement accordingly on farm.

Crude Protein	ME	UFL	Bulk	Bags
12%	10.8	0.94	✓	

21% BARLEY BALANCER

- Formulated to compliment farm stored grain
- Includes soya bean meal, wheat distillers and rolled beans
- Also includes soya hulls as its primary fibre source
- When mixed at a ratio of 50:50 the overall crude protein is approximately 15-5%
- Includes a high level of minerals and vitamins to balance the cereals when mixed.

Crude Protein	ME	UFL	Bulk	Bags
21%	10.7	0.90	✓	

15% BARLEY BALANCER

- Formulated to compliment farm stored grain
- 50% maize meal included in this so therefore suitable for both balancing grain and feeding to finishing animals
- When mixed at a ratio of 50:50 the overall crude protein is approximately 12-5%
- Includes a high level of minerals and vitamins to balance the cereals when mixed
- **Rumi Gain** included to maximise digestibility and herd performance.

Crude Protein	ME	UFL	Bulk	Bags
15%	11.5	0.97	✓	

MAIZE/BEET BALANCER

- This is a 21% crude protein mix and its formulated to specifically balance the high energy fodder feeds including maize silage and beet
- High inclusion of soya hulls which is a very digestible fibre source
- Includes soya bean meal, wheat distillers and rolled beans as the protein sources
- Suitable for feeding to all beef animals over 6 months of age
- High phosphorus beef mineral included to counteract the low levels of phosphorus in both maize and beet

Crude Protein	ME	UFL	Bulk	Bags
21%	10.9	0.89	✓	

Note: Proteins and energy levels can vary slightly from the listed with changes in ingredients used

Our Agri Technical Sales Advisors provide year-round advice to our farming customers. Whether you are involved in dairy, stock, tillage or mixed farming, Quinns aim is to make you a more profitable farmer by giving you the best advice, product and value available.
